

# **A Prayer For Justice in Healthcare for those with Mental Health Challenges**

**Praying for Peace and Justice on  
December 29, 2024**

Oh, Holy Mystery, we pray for those with mental health challenges, their families, and those who provide care for them. Please help us improve mental health care for all people, regardless of age, income, race, or cultural background. We ask that You open the hearts and minds of leaders, policy makers, and health care providers to the deep need for accessible, equitable, and compassionate mental health care. May those who have mental health issues receive the support they need without fear of discrimination. Help us, as a society, to provide the mentally ill with love, attention, and respect without judgment or stigma.
