

A Community of Communities

Since we began dreaming of our move to Takoma DC, long before we arrived in 2004, Seekers Church had a deep desire to share our space with other missions, ministries and organizations that are called to serve the greater good. Over the past decade we've helped that dream grow into a lively community of communities, that includes meetings by many different groups. In 2016, 49 different groups held over 550 events in our space. This did not include meetings or daily operations by Seekers Church or the three other organizations that use our space as their headquarters.

Currently, 19 of these 49 event sponsors host regular meetings at our place. Those who participate in their events often see our home on Carroll Street as their place for worship and meditation, healing practices like 12-step programs, folk life and music, and healing support.
